

Neuhaus Consulting GmbH

Best Practice Project Management
since 1998

Getting Things done!

This requires people who roll up their sleeves and simply tackle the things.

With a sense of proportion, with a lot of expertise and often with a lot of persistence. Always though with a sense of **positive communication** and with the human "factors" in project management.

In order to bring your projects easier to the finish line, you do not have to constantly reinvent the wheel of project management, you simply have to use it well oiled.

Our project management professionals, who operate according to international project management standards, pep in your projects, do the work and ensure a smooth operation.

This is our profession and our passion!

Pragmatic, involved, implementation-oriented

Our Mission

Making customers' projects easy and simply getting things done: **motivate, structure and implement.**

Our Vision

We provide **high-quality project management solutions**. Just as our **customers** need them.

The Team of Managing Directors at **Neuhaus**

Michael Stockhausen

With high and targeted project management competence, Mr. Stockhausen supported national and international large-scale projects in various industries in a wide variety of roles.

He has been Managing Director of **Neuhaus** Consulting since 2022.

Susanne Neuhaus

Getting Things Done!

Accompanied by the motto "do not know better, but simply getting things done", Ms. Neuhaus has many years of experience as a project manager and project coach in strategic organisational and IT projects.

She has been Managing Director of **Neuhaus** Consulting since 1998.

Bonn Offices

The company headquarters of **Neuhaus** Consulting is nestled on the banks of the Rhine in the "Bonner Bogen". At the beginning of 2016, it was relocated from Königswinter to the newly developed "Rheinwerk 3" in the district Bonn Beuel.

Our specially furnished premises overlooking the Rhine act as **company headquarters and office location for all central functions**. It is our primary contact address.

Our location is easy to reach by car as well as by public transport - our facilities are only five minutes away from the bus stop.

Neuhaus Consulting GmbH, Joseph-Schumpeter-Allee 31, 53227 Bonn, Germany

Location **Neuhaus** Campus

Since the beginning of 2022, **Neuhaus** has been using the **Neuhaus** Campus, a very unique location in the Wintermühlenhof in Königswinter, which serves primarily for internal and external events and meetings for employees as well as customers and business partners.

In addition, these extraordinary premises for both individual and group coaching sessions offer the best opportunities for effective learning and working in a pleasant atmosphere.

Our in-house training series on trends and current topics in the national and international project management landscape are now also held here.

Location

The Wintermühlenhof is a heritage-listed courtyard complex on the southern slope of the Petersberg and is located one kilometre east of Königswinter city centre.

Address:

Neuhaus Campus
Wintermühlenhof 6
53639 Königswinter

We are **Neuhaus** – A strong team at your side.

Kindly and straightforward we **roll up sleeves** and **just do the work.**

Instead of only leaving behind concepts, we create **rapid functioning solutions.**

Project portfolio management

Provide transparency in complex projects

Manage development projects

Manage innovative and disruptive IT development projects safely and properly

Manage merger and migration projects

Ensure adherence to deadlines and budgets in IT mergers and migrations

Manage organisational projects

Delivering organisational change efficiently and in a good mood to the finish line

We ensure the success of your project.

The *Neuhaus* Procedere for successful PM.

A:
Where are we?
Clarify requirements

C:
How do we get there?
Adapt project tools & plans to
the customer

B:
Where do we want to go?
Develop requirements together

D:
Are we on track?
Create transparency for the customer

Our core competence: Project Management

In the center of our work is the "magic triangle" of cost, time and performance, to bring your projects to the finish line.

Methods and tools include:

- **Calculation:**
Cost estimates, utility analysis, overall cost planning
- **Budget monitoring:**
Earned Value analysis, cost trend analysis, escalation reports
- **Project planning & -scheduling:**
Phase planning, milestone planning, schedule controlling, resource planning
- **Contract management:**
Configuration management, claim management, change management
- **Project reporting:**
Problem- & change reports, result assurance, status reports
- **Cut Over Management**
- **ServiceNow Project Management**
Requirements management, project leadership, governance of design and delivery teams

Our business analysts are distinguished in listening, questioning, understanding, structuring and documenting.

They represent the link between business and IT teams.

Tasks are, amongst others:

- Identify, verify, validate, manage and communicate requirements
- Manage changes in requirements
- Perform As-Is analysis
- Define, validate and monitor objectives
- Draft solution designs
- Create business cases
- Analyze and model business processes
- Optimize business processes
- Implement new processes
- Create functional designs

We support your project by setting up, managing and collaborating in the project management office PMO as the central entity. Employees in the PMO maintain project plans, collect status information and moderate project meetings.

Methods and tools of our projekt management office PMO are e.g.

- **Project planning:**
Phases- and milestone planning, project structuring, schedule and deadline planning, resource and operational resources planning
- **Project controlling:**
Risk management, stakeholder analysis, benefits and economic viability, cost trend analysis, earned value analysis, milestone trend analysis
- **Project reporting:**
Status and escalation reports, problem- and change reports, monthly cost & cost sum, recording results, contact lists, status reports, cost- and forecast reporting

Obstacles

Impediment

Chaos

Quick solutions for difficult situations!

„Thinking and getting on with it!”

Our project professionals respond quickly and calmly and act always allegiantly in stormy times.

We can help you immediately

- when projects have fallen **behind schedule**
- when positions in project management, in subprojects or the project management office are **vacant**
- When employees **are absent** in the current project
- when projects go out of **budget** or **schedule**
- when projects needs to be **reorganised** and “cleaned up”
- when a complete **relaunch** in your project is on the agenda

On the way to the lived enterprise „Management by Projects“ - we support you in:

- **Development** of project management structures
- **Implementation** of (major) projects
- Demand-oriented **project planning and control**
- **Conflict-free** coordination of all instances
- Efficient **meeting management** in projects
- Cross-phase **training & team coachings**
- Development & operation of **PMO's**
- Efficient & effective implementation of **program management**
- Alignment of your **project portfolio** with your corporate goals
- Presentation of your **multi project environment**
- Implementation of IT service management solutions with ServiceNow

A holistic approach, to increase the transparency of your multi-project environment!

Our specialists support projects with a systematic approach, in testing and quality management.

This includes:

Test management, test planning, test controlling

- Integration of test processes into the entire software development lifecycle
- Integrated tool-support throughout the test lifecycle
- Professional test environments and test data
- Testing as management discipline

Quality management, -planning, -and -assurance

- Definition of quality criteria
- Planning of concrete quality activities, such as audits, process documentation, constructive and analytical measures (such as project target definition or requirements analysis)
- Test plan
- Planning review

Be proficient – become even better!

Our PM training & -coachings are based on international standards and will be managed by experienced project managers and coaches.

Individual coaching

- Preparation for new tasks in project management
- Deepening your soft skills

Team coaching

- Support in M&A processes
- so that all speak the same language in your team
- to bring your project forward by guided workshops

Trainings

- so that all speak the same language in your company
- to deepen individual areas of project management

Well established with our customers across all sectors.
